**Amendments To the Abstract:**

In the English translation document, please add the section heading and paragraph at page 18 line 1, as follows:

**--ABSTRACT**

A method for selecting a service provider for a service, which can be received by a mobile station via a radio access network and which is provided by at least two service providers, as well as to a corresponding selecting device are shown. During a method for selecting a service provider for a service, which can be received by a mobile station via a radio access network and which is provided by at least two service providers, a selecting device receives a request for selecting the service provider from the mobile station via an interface. The service providers are requested by the selecting device for indicating a value of a selection parameter, and the selecting device selects one of the service providers for the service according to the indicated values of the selection parameter.--
